What is a Community Treatment Order (CTO)?

A Community Treatment Order means that you can live in the community, but there are certain things you may need to do. These are called conditions and are there to keep you well. You should be told what these conditions are before you leave hospital.

There are 2 mandatory conditions:

1. You must make yourself available for medical examination by your Responsible Clinician.
2. You must make yourself available for medical examination by a Second Opinion Appointed Doctor (SOAD) if necessary.

This means you have to attend the appointment to renew your Community Treatment Order.

Community Treatment Orders can have more conditions. They may be around medication, therapy, counselling, and rehabilitation.

These conditions can only be made if they are necessary and appropriate to protect you and others.

A Community Treatment Order cannot be used to force treatment on you; however, the conditions may recommend that you comply with the medication regime.

How long does a Community Treatment Order last for?

You can remain on a Community Treatment Order for:

- 6 months then this can be renewed for a further,
- 6 months then this can be renewed for;
- 12 months after that.

HOW CAN I BE DISCHARGED?

The following people can make this decision:

- Your Doctor
- Mental Health Review Tribunal
- Hospital Managers' Hearing
- Your Nearest Relative
(by writing to your Doctor).

WHAT HAPPENS IF I BECOME UNWELL?

The Doctor may think that you need to return to hospital for treatment. This is also known as 'recall'. **If you feel unwell, phone your doctor or Care Coordinator.**

HOW LONG CAN RECALL LAST?

Your Doctor will have to decide whether you need to remain in hospital within 72 hours of admission. You can be discharged within the 72 hours with support from your community care team.

Care Programme Approach (CPA)

To help you to prepare for your meetings, use the handy self-help tool: 'Preparing for my meetings' on page 18.
