

Advocacy Focus Work With Us!

Work with us!

Advocacy Focus places our people at the heart of all we do. We work towards a diverse, inclusive and flexible workplace, which starts at recruitment. Our team is full of great people who work hard to deliver a quality service to the people we support. We also want a team that has direct experience, and understands the needs of the communities we work in.

Making our charity a great place to work

We are working hard to employ a diverse team. If you are keen to work with us, we will treat you with respect, support and with equity, from the get-go and until you join our team. To get the best out of potential team members, we offer transparent interviewing. Which means you will be given your interview questions 24 hours before your interview takes place. Taking away some of those interview worries and helping you to perform at your best.
